

# AVImark Release Notes

## Version 19.10.4

### What's New

Security, in the form of record locking, was added to the Medical Condition Record (MCR).

- ▶ **Medical Condition Record Locking**
  - ✓ Added a Lock button at bottom of the Medical Condition Record that will lock the record from any more edits.
  - ✓ Added text to the top of the MCR when locked (LOCKED date time and user id).
  - ✓ Created a Security option for Ability to Lock MCR.
  - ✓ Created a Utility to Lock all past medical condition record (built in).

Options to import data into a patient's Medical Condition Record have been added to the program.

- ▶ **Importing Medical Condition Record**
  - ✓ Added a Menu option to Medical Condition Record, Import SOAP, that will allow users to choose from a list of patients Medical Condition Records that they can import.
  - ✓ Created a selection window for all areas available to import from so the user can select which areas they would like to import.
  - ✓ Users can Import Assessment and Plan Entries.
  - ✓ Import notes from Subjective, Objective (including Abnormalities), Assessment, Plan and Client Instructions.

Enhancements and a new report have been added for ASAP Controlled Substance Reporting.

- ▶ **ASAP Controlled Substance Reporting**
  - ✓ 8314 - Enhance ASAP Report for Illinois.
  - ✓ 8316 - Enhance ASAP Report for Mississippi.
  - ✓ 8317 - Enhance ASAP Report for California.
  - ✓ 74561 - Implement ASAP Reporting for Virginia.
  - ✓ 88937 - Enhance ASAP Report for Tennessee.
  - ✓ 77427 - Corrected the New York ASAP - NABP field is no longer a requirement.

## Version 19.10.4

### What's New

The Restore database utility has been enhanced with better security and naming conventions when backing up the AVImark database.

#### ► Restore Feature Enhancements

- ✓ 84114 - Moved the Restore AVImark option into the Utilities | Utilities option under the name of "Restore" to add better security around performing a Restore of AVImark.
- ✓ 92134 - Renamed the internal AVImark backup name from just the day of week to now include the AVImark version and date the backup was taken. Example: Wed.zip is now Wed-2019100 Add date and time to name of backup taken from the internal Backup
- ✓ 92135 - Added a backup prior to restoring AVImark through the "Restore" Utility. This backup will have the same naming as story 92134, but will include an R at the end so it is clear the backup was taken due to a restore being performed.
