

IMPROMED EQUINE 18.11.0 RELEASE NOTES

WHAT'S NEW

	Task ID	Title	Description
	75383	CareCredit	The CareCredit button, which appears on the Quick Access toolbar, has been updated to their new logo.
	75368	CareCredit Settings - Account Information	The CareCredit button on the Quick Access toolbar has a drop-down menu to open CareCredit Settings. The Settings include the option to Enable CareCredit, a field to enter the business' merchant ID, and associate a payment method for CareCredit payments or refunds.
	77577	CareCredit Settings - Owner Information	From CareCredit Settings, map ImproMed Equine client fields for date of birth, cell phone, and apartment to the CareCredit fields.
	75442	CareCredit Security	The ability to secure CareCredit pages and settings from users has been added to Security and Secured Items.
	75372	CareCredit Home Page	With ImproMed Equine open, the operator may click on the CareCredit button located on the Quick Access toolbar to open the CareCredit home page and pre-fill data from the active client.
	77086	CareCredit Transactions	If a payment or refund is made via CareCredit, a message will appear in the ImproMed Equine software giving the operator the option to apply the payment or refund to the active client's account.

ADDITIONAL RELEASE ITEMS

Accounts Receivable

77849 The Transaction History tab has been corrected to calculate the After A/R Total. Also, the record selected is the record highlighted after a screen refresh.

Invoicing

78109 Transactions have been corrected to show the appropriate practice making a product return. The Multi-Practice Accounts Receivable Activity report has been verified that it is pulling refunds from the practices making the corrections.

80273 Activating a Wellness Plan will not create a product count error or generate a client/patient error when another workstation changes the Desktop client.

Labs

54023 AXIS-Q results will appear in ImproMed Equine if there are no open requests in ImproMed Equine's view.

Prescriptions

50736 The written script will print the correct number of refills in "long hand".

Reports

77329 On the Summary Aged Trial Balance, Wellness Plan payments are not included as part of the last payment details when accounts receivable is involved.

81282 Changes have been made to the Scheduled Payments Audit Log to include partial payments.

56526 The CA ASAP 4.1 Controlled Substance Log Export file name format has been updated to include the DEA number and date and will save the file as a .txt.

57950 The NH PMP 4.2 Controlled Substance Log Export has been updated to meet the requirements of the New Hampshire Prescription Drug Monitoring Program.

77299 The NE PMP 4.2 Controlled Substance Log Export has been updated to satisfy the requirements of the State of Nebraska.

74625 The VA PMP 4.2 Controlled Substance Log Export has been updated to satisfy the requirements of the State of Virginia.

Scheduled Payments

80935 Scheduled Payments will track and record partial payments if the full attempted payment amount fails. The Scheduled Payments screen will show "Succeeded - Partial" and the amount that was approved.

Updates

77441 Users will be required to upgrade all workstations with service release upgrades.
